Ribosome
Proteasome
Coronavirus disease
Epstein−Barr virus infection
Staphylococcus aureus infection
RIG−I−like receptor signaling pathway
NOD−like receptor signaling pathway
Antigen processing and presentation
Th17 cell differentiation
Cytosolic DNA−sensing pathway
Valine, leucine and isoleucine degradation
Fatty acid metabolism
Fatty acid degradation
2−Oxocarboxylic acid metabolism
Citrate cycle (TCA cycle)
Propanoate metabolism
Drug metabolism − other enzymes
Tight junction
